

Consignment Guide OSMS

In order to give everyone the best experience and guarantee the quality of the products that will be sold, we make sure to meticulously inspect each item before making our selection and setting the price.

For One Soul Many Stories, a good price is a price that maximizes the chances of quickly finding a buyer and above all of successfully closing the sale during the 3 days of the pop-up. We take into account the brand, style, condition, trends as well as supply and demand.

Here are some tips to help you with your sorting and give your items the best chance to be selected for the sale!

1. **Check your items in bright daylight**, on your balcony or near a large window, small stains or blemishes are easier to spot.
2. Be especially careful of the **yellow marks** (on collar or underarms), **discolouration** from sunlight, **moisture stains** (white on dark fabrics and yellow/rust on white fabrics). They are unfortunately very common in Singapore!
3. **Wash your items** before handing them over to us, the smell of humidity seeps everywhere when a piece is not worn very often.
4. Make sure your items are **not faded, felted or declawed**
5. **Check** zippers, seams, hems, buttons. **The brand labels** with size, composition and maintenance instructions should not be cut off.
6. Make sure the bags all feature their original straps and ideally the dustbags
7. Consider providing the **authenticity cards or receipts** for all consignment of Luxury items (in particular bags & accessories).

We only accept items in impeccable condition and in line with the below condition ratings:
